# With SMS Scams Now a **\$6 Trillion** Industry

SINGAPORE - Dec 28 is not a day that housewife Siti Raudhah Mohd Ali, 33, remembers fondly. The mother of seven lost about \$100,000 to scammers within minutes that day after she fell for a bogus SMS that had spoofed OCBC Bank as the sender.

She is one of **nearly 470 OCBC customers who lost at least \$8.5 million** last month to SMS phishing scams. Over the Christmas weekend alone, 186 customers lost about \$2.7 million, the bank said.

Yet, SMS engagement, for example, is critical for businesses to remain competitive and engaged with their customers.

- SMS has high open rates of **~98%**
- SMS has highest response rates of **~45%**

**= Massive ROI on A2P for Enterprises**

The first omni-channel communications verification platform, equipped with **AI-powered scam analytics, monitoring,** and **real-time alert** capabilities

# Ping : Powering Verifiable Trust

## What is Ping used for?

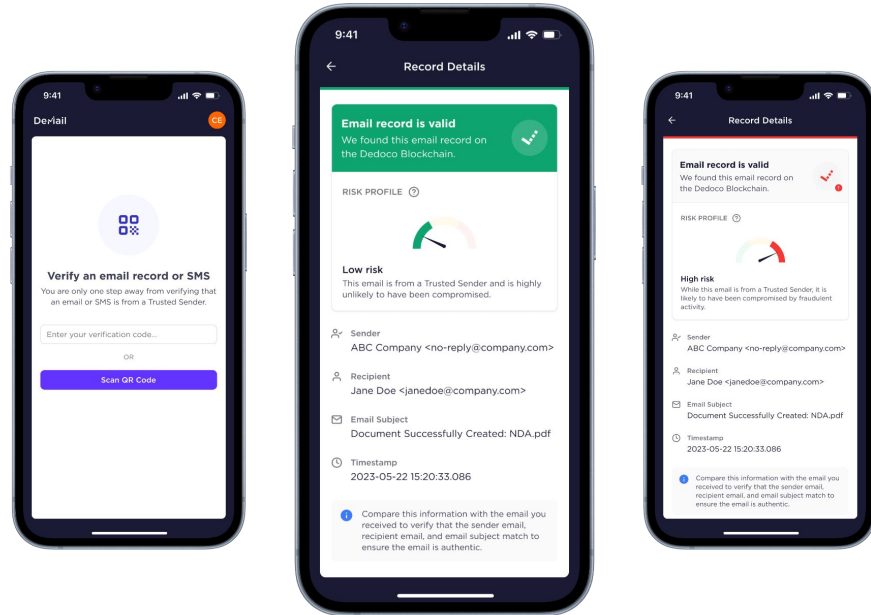

To deliver verifiable, omni-channel business communication to customers

## How is blockchain used?

Message records are hashed and signed before being stored on the blockchain, providing data integrity validation

## How does AI help?

Ping's AI engine gathers behavioral analytics and generates risk scores for continuous learning and fraud prevention

# What is the impact if messaging is left unprotected?

## **Brand reputation and financial losses from negative association with scams**

**Ping** provides a proactive digital tool for easy, self-serve verification of authentic messages and the capture of malicious scams - allowing for easy reporting and takedown

## **Extreme measures to protect, lead to severe drop in productivity and experience**

**Ping** makes 'clickable links safe again' for improved customer experience and efficiency across banking, ecommerce, logistics and other targeted sectors

## **Hefty customer support costs for manual verification processes**

Without a digital solution, manual verification process costs on average US\$3-5 per support ticket vs **Ping's** base charge of US\$0.005 per verification + an automated, streamlined workflow
