Where & How We're Different!

TRANSPARENCY

Our fees are transparent with no hidden charges, with service levels guaranteed by contract.

IT JARGON-FREE

We keep the technical language behind the scenes to make things easy to understand and fuss-free for you.

AWARD-WINNING SERVICE & EXPERTISE

Get access to award-winning service and a team of leading vendor-certified IT professionals when you choose SWiZ Technologies. Our team has more than 14 years of industry experience providing strategic and professional support to a broad spectrum of SME organizations.

OUR COMMITMENT TO QUALITY

No matter the size of your organization, we are committed to making every effort to fully understand your unique needs and providing personalized solutions to ensure your long-term satisfaction.

END-TO-END SOLUTIONS PARTNER

Save the hassle of managing multiple IT vendors by partnering up with a single organization to eliminate double handling. We offer a complete suite of ad-hoc and managed services for your one-stop convenience that includes hybrid infrastructure & networking, end-user support, telephony, IT security, hardware and software procurement, IT equipment rental, and hosting services.

About Our Founders

Andy Lim

Director and Co-Founder

A sought-after consultant for information security and business continuity, and certified auditor. Andy is responsible for SWIZ Technologies' strategic and operational performance. His wealth of experience working with organizations from a wide array of industries like online retail, manufacturing, engineering, and information technologies enable him to deliver insightful counsel to businesses particularly in the mid and enterprise markets. In additional to being an award-winning tech entrepreneur, Andy is also a panel speaker for regional business continuity conferences.
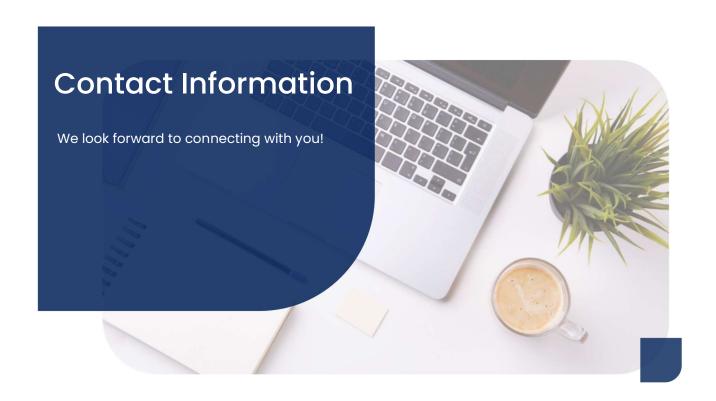

Ken Tay

Business Development Director and Co-Founder

A results-orientated leader with over 20 years of enterprise IT sales, technical and project management experience, Ken has a track record of delivering high growth sales targets and strategic business objectives. A professional engineer by training and natural problem solver, his rich technical knowledge and proficiency at project management makes him instrumental to the company's growth and success.
