# SYGNIA

DRIVING **END-TO-END** CYBER RESILIENCE

Sygnia is a cyber consulting and incident response company, providing high-impact services to organizations worldwide. Sygnia's elite team of cybersecurity experts partners with organizations to proactively build their cyber resilience and defeat attacks within their networks.

Sygnia offers a range of services designed to accelerate each step of an organization's journey to greater cyber resilience:

01 /
KNOW
Gain sharp visibility into your digital landscape, identifying opportunities for high-impact, strategic improvements

02 /
PREPARE
Develop a fit-for-purpose strategy, architecture, and operating model to ready your organization for a cyber event

03 /
SIMULATE
Stress-test and elevate your capabilities against real-life threats by leveraging an attacker's perspective

04 /
DETECT
Proactively reveal and eradicate nascent threats and establish continuous high assurance and vigilance

05 /
RESPOND & RECOVER
Swiftly contain and defeat cyber attacks, and minimize business disruption

THE SYGNIA **DIFFERENCE**

ADVERSARY PERSPECTIVE

Cyber attacks are a mind game. You need to think like an attacker and emulate their tactics to win the battle. We defeat and prevent attacks by applying decades of digital combat experience and constant analysis of the threat landscape

TECHNOLOGICAL DEPTH & AGILITY

Sygnia's teams work effectively with any IT or security stack, in any domain including cloud, application, CI/CD, OT, mobile, iOT, and traditional network infrastructure

TOP TALENT & EXPERTISE

Sygnia employs only highly experienced A-teams with extensive cyber warfare and enterprise security backgrounds. Sygnia's extensive incident response and enterprise security experience is embedded into our services: our teams provide detailed insights into the requisite defensive fabric, strategy, and tactics needed to maximize cyber defenses

PRAGAMATIC AND RESULTS-DRIVEN

Sygnia's recommendations are pragmatic, actionable, and impact-driven. Our teams always look first for ways to optimize the client's existing security stack, make the best use of any security spend, and achieve results faster

OUR SOLUTIONS

01 / KNOW

Security Posture Enhancement
Assess strength, design security, and establish resilience

Cloud Security Enhancement
Assess, design, build, and transform your organization's cloud security posture

OT Security Enhancement
Assess, design, build, and transform your organization's OT security posture

M&A Assessments
Conduct due diligence, analyze and manage acquisition-related risk

02 / PREPARE

Crisis Preparedness
Strengthen and integrate corporate crisis strategies and procedures to prepare for any level of cyber incident and reduce multiple types of risk

Ransomware Readiness
Strengthen your ability to defend against ransomware attacks

Contingency Planning
Mature and embed business continuity strategies and procedures across the company to minimize the operational impact of a severe cyber incident

03 / SIMULATE

Red Teaming
Simulate targeted attacks on the network to test security and identify vulnerabilities

Purple Teaming
Empower your security team via advanced, dynamic and realistic training experiences

Tabletop War Games
Train your leadership and security management, by simulating a heavyweight, realistic attack

04 / DETECT

Threat Hunting
Preemptively hunt attacks and neutralize dormant and early-stage active threats

Advanced Monitoring
Maintain threat detection capabilities and monitor your network in times of significant business risk

Managed XDR
Augment internal security capabilities with Sygnia's extended detection and response service

05 / RESPOND AND RECOVER

Incident Response
Investigate, contain, and defeat attacks in your network while minimizing business impact

Incident Response Retainer
Have a trusted partner on standby to support you, from forensic triage to a full-scale cyber event

Digital Forensics
Find and recover digital evidence at any stage of investigation or litigation
