OUR CORE VALUES

Knowledge Driven
Commitment
Service Excellence
Integrity
Technology Savvy
Passionate

We work hard to inspire, collaborate and create value through our employees, our customers and our industry partners. We believe that the most successful transformation projects can only come about through mutual respect, shared ownership, collaborative exchanges and bonding with our stakeholders.

TECH WORKFORCE SOLUTION

Established in Singapore since 1993 with success of over 3 decades of IT Service Delivery for MNCs & large local system integrators.
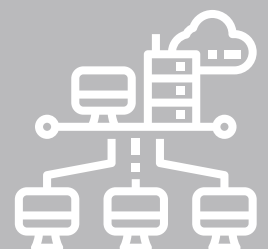

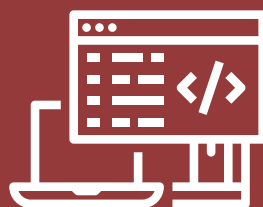

Implemented mission critical projects within 2 weeks

S8 clearance for government tender participation.

We have delivered over SGD$100 million worth of operation management services in the past decade to support our clients in their strategic IT deployments.

Delivered mission critical ICT workforce deployment that required over 300 headcounts.

We wear our badge with pride as a professional services firm built on integrity, teamwork, resilience, and trusted alliance with our multicultural workforce.

Enterprise Operations

Our Enterprise Operations Fulfilment Centre provides clients with access to the services of our experienced IT Project Management professionals and technology savvy Resource Specialists.

Enterprise Solutions

We source globally for technology solutions that help our clients respond productively to business competition and operational challenges.

ENTERPRISE OPERATIONS

01 Talent Strategy

We champion Tech-Savvy talent and People-Savvy clients capable of contributing mutually to a constructive enterprise-employee alliance.

02 Contracting

We are the volume-ready source for experienced ICT contract manpower hiring needs.

03 W . i . S . E . Workforce. Immersion. Scheduling. Engagement.

We support clients who require proactive ICT specialist resource pool building, guaranteed availability and deployment scheduling management solutions.

04 Managed Ops

We help our clients conserve ICT project management resources by taking ownership of the time-consuming deployment capacity issues and routine management activities.

i2i (Interns to Innovation)

Our i2i (Interns to Innovation) Tech Talent Program focuses on producing and re-skilling tech professionals with the aim to stream new talents into the industry starting with a rigorous recruitment process, followed by a comprehensive certification training and hands-on learning journey with partnering companies.

i2i Outsystems Developer

i2i SOC L1 Analyst

> "
>
> I wanted to gain experience and find a foothold in the IT industry. With little prior experience in IT, I was drawn to this professional certification training program because it offered me an opportunity to learn and apply my skills to practical use in the real world, while honing them during my traineeship.

- Andrew Lim
i2i Outsystem Developer Trainee, 2021
