

DOING I.T. RIGHT

ABOUT US

At Nucleo Consulting, we provide IT consultancy services that have been trusted by leading enterprises for over 16 years.

Nucleo Consulting is a small but full-service tech company.

We help you set up the direction for your IT structure and security based on your business goals. Once the strategy is in place, we address your challenges by developing relevant policies and documentation to achieve your compliance needs.

So we do both strategy, project management and implementation. But our passion lies in making a real difference for the business and the actual implementation of a strategy. So, we get things done!

We are small but not too small. Nucleo's team has proficient technical skills and certified ISO27001 consultants who follow the market's best practices to fulfil the needs of our clients. We have been serving clients in Asia, not just locally, so we do have an extensive background and a good understanding of all industries ranging from F&B, commodity, finance, legal to manufacturing sectors, whether or not they reside in Singapore. The advantage is focus, agility and cost efficiency for our clients.

OUR MISSION

Empowering businesses with cutting-edge IT solutions, integrating them with the right technology. To create value and make a difference in the way people work.

ACHIEVEMENTS

Nucleo Consulting strives to do our best, and we are proud to present our great achievements.

Nucleo Consulting has made it to the hall of fame by scoring 100% on CSA's Internet Hygiene Portal (IHP) for both website & email security.

Nucleo Consulting has been granted the Penetration Testing Service License to provide Pentesting services in Singapore.

CYBER ESSENTIALS
Certified

Nucleo Consulting has been awarded the CSA cybersecurity Certification (Cyber Essentials Mark), for the provision of Information Technology, outsourcing, and cybersecurity consultation services.

Offering full-fledged services allowed Nucleo Consulting to set itself apart in the IT industry.

Our Managing Director, Ms Sandra Yeow won the Women Entrepreneur Awards (Pulsar Category) in year 2017.

OUR CUSTOMERS

REVIEWS

“

Nucleo Consulting has been proactive in supporting and recommending plans for our IT infrastructure. Thank you, Nucleo team!

-Rice Fields Pte Ltd

“

Excellent team with very professional support. Really thankful to have them running our IT solutions. Highly recommendable. Thanks Team!

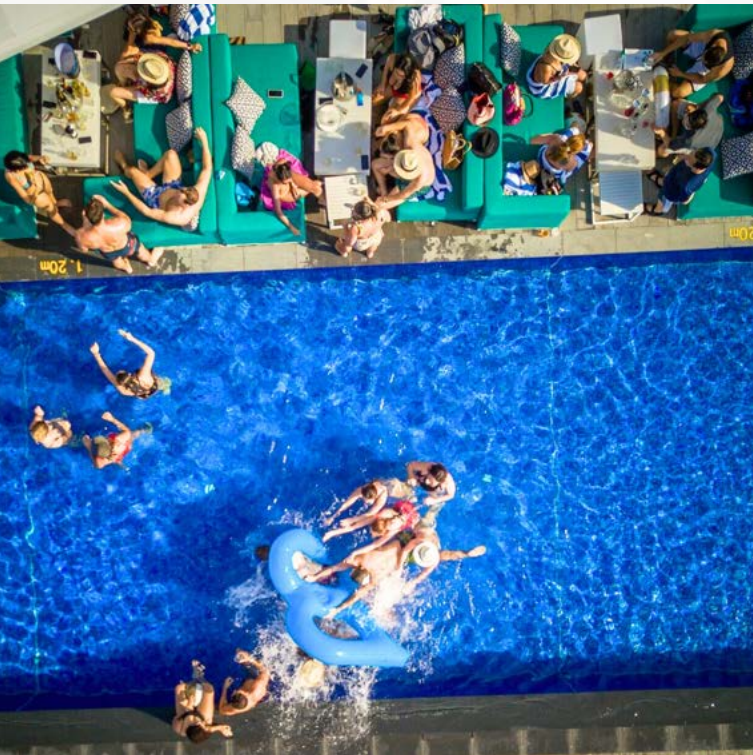

-SingCapital Pte Ltd

“

Efficiently resolves my IT issue, manages projects well, professional advice helped resolve issues, and responsive in follow-up. Wonderful Experience with Nucleo on recent project!

-YNY Design+Construction

PROJECTS

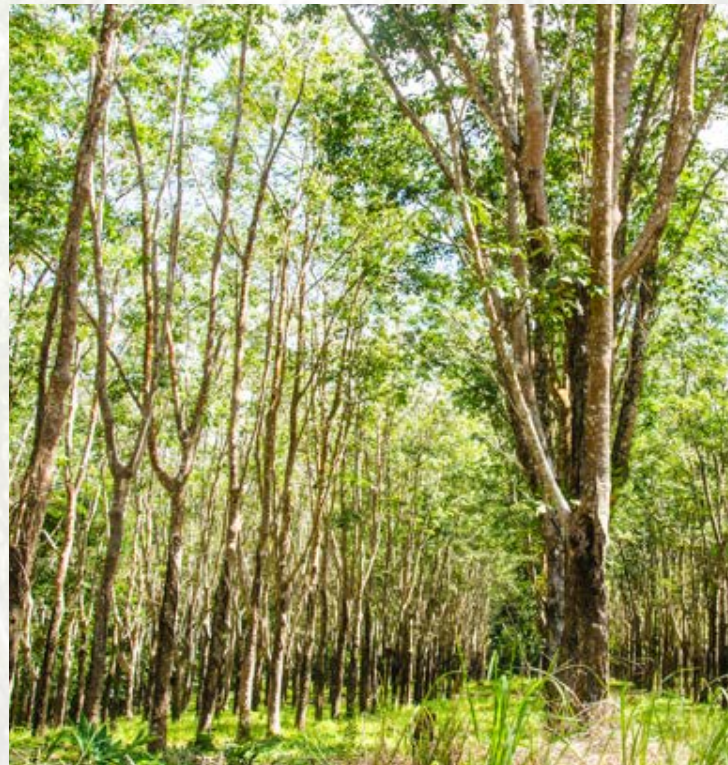

A roof top bar with restrictions to network and infrastructure resources and strict aesthetic requirements makes this project one of the most challenging ones that we done and to add on the challenge, the setup started just before Covid and the team has to adhere to Covid restrictions during the pandemic and was only fully completed after Covid restrictions were lifted. Now it is a beautiful roof top bar in Sentosa which we are proud to be part of the setup process.

Southland Rubber
Think Good, Better Will Follow

Southland Global is a seed-to-shelf rubber commodity trading company that has offices globally and we have a long standing relationship with them. It all started when there was a flood in Thailand which affected their email system. Our team has setup their email system in our data centre in Singapore and ensure the ongoing maintenance of email system after. We are also proud to be part of their journey when they acquired factories in Indonesia, setup the IT strategy and integrating them into their HQ systems in Singapore.

Animal Concerns Research & Education Society (ACRES) was one of the first few charities that our team has assisted and eventually became our adopted charity as well. ACRES is founded by Mr Louis Ng, a current member of the Singapore Parliament, to serve the community by relocating wildlife that went into people's homes back to the wild with a 24x7 hotline. Our team has assisted in running ACRES's IT operations and ensured smooth processes throughout the charity's head office.

FIDReC

FIDReC is an independent and impartial institution that resolves consumer financial disputes through mediation and adjudication and they play an extremely important role in the financial sector in Singapore. We have been assisting them with their daily IT operations, actively involved in their digitalisation journey and also assisted in their yearly VAPT exercise, ensuring their IT operations is secured and safe.

SOLUTIONS

01

IT Consulting

We believe that all companies, no matter how big or small, need to develop an IT strategy. SMEs often find this hard to understand but it is vital for a small business to avoid costly mistakes. We put our heart into understanding our clients' business processes before recommending the IT solutions that are right for them. We have been growing alongside with our clients for more than 15 years.

02

IT Outsourcing

We have a team of IT professionals who work both locally and remotely to ensure that we can provide you with the right kind of support. Our approach is tailored to your needs, which results in lower operating costs by paying a single price for knowledge and support from an entire IT department.

03

Project Management

If you're thinking of redesigning your work processes and making your team more productive, we can help! Nucleo Consulting has an in-house qualified management consultant who is able to assist in this process, effortlessly! If your project meets the criteria, you may be eligible for a government grant that covers up to 70% of the cost!

04

Cyber Security Solutions

Scammers are getting smarter day by day and employees are always the weakest link. We have training courses to beef up their knowledge of the latest threats, on top of the usual email, network and endpoint security solutions for your IT network, making it a complete and all-rounded solution for your IT security needs. A good internet cyber hygiene strategy is what all companies need to keep the scammers and security risks away.

05

AI Leads Generation

Unlock business growth with our automated AI lead generation tool! This innovative solution leverages artificial intelligence to locate the right people in the right company, propose solutions, and even craft attention-grabbing subject lines for introductions. Say goodbye to outdated, recycled data as you generate fresh leads, in real time!

06

All-In-One Customer Relationship Management (CRM)

Complementing our AI Leads Generation tool, this comprehensive all-in-one CRM tool enables you to manage your entire business on a single platform! This all-in-one CRM tool is designed to replace costly subscriptions to various services, including CRM systems, sales funnels, website builders, surveys and forms, email marketing, SMS marketing, bookings and appointments, workflow automation, courses and products, call tracking, reputation management, tracking and analysis services, and much more. It's the ultimate solution to streamline your business operations and enhance your business efficiency!

07

Penetration Testing (VAPT)

NuPenTest is a reliable Vulnerability Assessment and Penetration Testing (VAPT) service designed to test your network infrastructure against ever-evolving cyber threats. This automated network pentesting tool uses the latest methodologies to identify vulnerabilities and simulate real-world attacks on your IP addresses, providing you with comprehensive insights and recommendations to strengthen your cyber defenses. Test your network every few months instead of yearly to close the gaps in our dynamic threat landscape.
