

## SECURE YOUR DIGITAL FUTURE

SIMPLE. HUMAN CENTRIC. CUSTOM DESIGNED.

### Who is 5Cyber?

5Cyber Security Solutions Pte Ltd is an innovative cybersecurity company based in Singapore dedicated to providing cutting-edge cybersecurity solutions to businesses navigating the complexities of the digital age. Our mission is to empower businesses to secure their digital assets and operations through a comprehensive suite of solutions customised to meet their unique needs.

### What services does 5Cyber provide?

Over the years, as cyberthreats become more sophisticated, cyber solutions have also become more complex. However, complexity kills productivity and leaves us less agile and less secure.

5Cyber aims to only provide 5 cybersecurity solutions, designed to be simple yet complete:

1. **SECURE:** Vulnerability assessment and redesign to better secure your digital assets
2. **FORTIFY:** Penetration testing and strengthen defences against common attacks
3. **INNOVATE:** Creative solutions custom designed for evolving threats
4. **REACT:** Respond to cybersecurity threats and implement the right steps
5. **READY:** Continually monitor, assess and develop cybersecurity capabilities with AI

### What makes 5Cyber unique?

**SIMPLE:** We take care of the complexities of technology to deliver on your objectives.

**HUMAN CENTRIC:** We facilitate the deployment of solutions with people at the core.

**CUSTOM DESIGNED:** We seek to understand your needs to design solutions that work.

### I'm interested to begin a non-obligatory conversation, how to start?
