Company Description: Chrono Arc Technical Services (CATS) is a premium reseller-partner of Cyber Security Works (CSW) in the APAC region. CSW is a leading provider of VAPT and cybersecurity audit services across the world. With a globally distributed team of highly experienced and skilled cybersecurity experts, CSW offers specialized services in the field of PCI Compliance and VAPT services.

CATS has a team that has professionals with in-depth understanding of the APAC cybersecurity marketplace, customer needs and regulatory requirements. CATS professionals possess over 17 years of experience in the cybersecurity market across vendors, service providers, consulting and MSSP space. CATS professionals possess an empathetic appreciation of the APAC cultural landscape and customer operations. Being a premium partner of CSW, CATS brings to the Singapore and APAC market, a fresh perspective into the VAPT market with advisory and consultation to augment the audit findings to help customers prioritize remediation efforts.
