CEO & Founder

Amelia Ching

An established training and consulting company since 2017, AgilenLite offers IT risk and security consulting services and corporate and professional reskilling and upskilling training.

Amelia Ching, the founder of AgilenLite Pte Ltd, is a seasoned banking leader with over 25 years of experience in Corporate Banking with key accomplishments in:

- **Operational Risk Resilience:** Implemented robust risk and control frameworks that effectively balance operational risks while enhancing service delivery.
- **Customers' Global Reach:** Led critical global Internet application projects for global corporate customers to achieve increased accessibility and consistent service quality.
- **IT Operational Efficiency:** Run Asia-hour global IT incident response service with a good track record in high-quality service delivery.
- **Standardised Implementation Model:** Implemented a standard operational model in Asia.

Our Mission

To empower individuals and organisations to thrive in the evolving digital world.

Our Vision

To be your facilitator to stay relevant while navigating the evolving digital and cyber world.

Our Core Values

Be proactive at the technology forefront to offer practice and gamified-based solutions.

Our Services

Tech for Non-Tech

Deliver training that equips non-technical professionals with IT Risks & Security knowledge for informed decision-making.

Solution- Based Consulting

Offer strategic guidance with action plans to achieve optimal business outcomes.

Job Upskilling and Reskilling

Design practical IT and security skill blueprint for workforce's upskilling and reskilling.

Gamified Training For Tech

Deliver tech-skill training the practical, fun, and immersive gamified way.

Value-Added Services

Cybersecurity Book Collection

A curated collection of cybersecurity books for non-technical readers, using real-life cases to explain threats. The contents include practical tips for effective prevention and recovery of incidents.

Learn Anytime, Anywhere

A series of interactive, user-friendly e-learning courses designed for busy individuals and companies. Perfect for self-directed learning - available anytime, anywhere at your own pace and target.

Podcast Series

This engaging **four-part series** guides learners through a compelling journey—from **understanding the background and impact of real-world cyber incidents**, **learning key lessons** and **understanding and implementing effective controls**.

The series aims to **strengthen organisational cyber resilience** and equip professionals with practical strategies to combat emerging threats.

Voice of Customers

Here are sample testimonials; they resonate with the values we bring to the customers.

“

Lots of information sharing by industry experts which will be very helpful to the trainees as we embark on our new career.”

“

The energy and dedication coming forth from all the trainers as they impart their **vast experiences** and **knowledge** of the financial industry for us to take up.”

“

Group exercises and labs are very helpful. **Knowledge shared** by all the trainers during the lecture is of extreme value.”

“

The **breath of topics** is really helpful to induct newcomers to the work and industry. It is also very heartening to be able to **build networks** with both fellow students and the teachers because we might need some help when encountering advanced challenges.”

“

Wide coverage of topics covered in programme, from **soft skills to technical skills.**”
